### HOW TO USE

Pick a particular flow or experience to map. Think back to the last time you went through that flow or experience. Write each step you completed on a task card. For example, "The last time I bought groceries I made a shopping list."

**HOW TO USE**

Read through the tasks you brainstormed and placed in the doing row. For each task, think about how you felt when completing that task. If you had a particular emotion, write it down on a card. Next, circle a number on the pain vs delight scale.

### HOW TO USE

Pick a pain point on the map. Brainstorm ways you could solve the pain point and write each idea down on a card. For example, "If I had a magic wand, I would build an app that tracks which groceries I buy and how long they last."

**HOW  
TO  
USE**

Read through the tasks you brainstormed and placed in the doing row. Write down what you were thinking while completing each task. For example, when I made a shopping list I thought “I wish I was at home so I could see if our avocados have gone bad.”

**HOW TO USE**

For each opportunity on the map, think about two things. First, how much effort will it be to implement this idea? Mark a tally on the effort scale. Second, how much positive impact will this idea have on customers? Mark a tally next to the impact scale.
